

Further to last Thursday's announcement of Racing NZ's position in regard to participation in Racing under the Traffic Light System, an exception has now been made for those LPs who have had their First Covid Vaccination by Friday 3 December.

Whilst Fully Vaccinated LP's will be able to use their new My Vaccine Pass to gain entry to racetracks, those with a single vaccination only will have to produce one of the following:

1. purple paper vaccine card; or
2. by displaying your 'My Covid Record' webpage on the Ministry of Health 'My Health'; or
3. by displaying evidence of your second booking via Text message from 2328

Single vaccination LPs will have until Monday 17 January to complete their vaccinations and utilise the My Vaccine Pass.

Please Note that Face Coverings will remain Mandatory INSIDE the kennel block whilst kennelling and taking dogs out to race. Once outside, Face Coverings are strongly encouraged.

Also Note that the Single Vaccination exception ONLY applies to racing activities at the track. Bars, Restaurants and other businesses on racetracks will operate their own Covid Protocols and are likely to only allow Fully Vaccinated customers.
